Customized Services

As a management consultant, JBS knows that company Owners and Executives are constantly searching for better ways to do business. He believes Sustainability will be a key centerpiece in every prudent 21st century Business Strategy. While many Owners and Executives are considering Sustainability projects, very few are clear how to effectively implement a Sustainability initiative. Fewer still are not looking to combine Sustainability with Lean Six Sigma methodology.

- **Analytics & Optimization**

Customized Workshops

JBS will provides customized workshops that help organizations prepare and implement change in their environment. Course preparation will be based on the scope of the workshop, objectives for your organization, templates that will be used in your transformation, and exercises. Leadership is strongly encouraged to be "hands-on" and participate in those activities to ensure understanding and underscore urgency.

For customized workshops, design and research costs will be incurred, depending on the timing of the workshop. Estimates for development and workshop will be estimated separately. Costs will be based on time and material basis. Note: workshop design, collateral, and actual workshops will not be sold separately.

Customized Speaking Engagements

Custom Speaking Engagements are based on a clear understanding of your organization's objectives. By using our survey tools, we will help you establish what is desired from your future audience and prepare a presentation based on those needs. Speaking customization will be charged on the basis of content, research time, and material costs to prepare your unique message. Mr. Jarvis has spoken to ASQ, APICS, PMI and other service and professional organizations in the DFW Metroplex.

Research and White Papers

Should you need specific research for business needs, contact us. In an internet world access is easy, but applying that new information and considering how those changes could impact your organization is another consideration.

Customized Business Coaching

Many times extending consultants at your location is cost prohibited. In these cases, time to review issues, “bounce off” strategies and ideas or just being the catalyst in thinking through business issues are best suited with an one-on-one appointment.

Customized Performance Reporting & Design

If you are not measuring your efforts, your are loosing money and certainly do not know whether you are successful in day-to-day activities or the ef-

fectiveness of your strategies. Management reporting is essential and critical in assisting fact base decision-making.

Publications

The business environment changes with the dynamics of commerce, regulations and perceived opportunities for growth, market share, profitability, efficiency and brand image. We recognize that today Executives and Business Owners of any size company are not fully optimized nor retain efficiencies in day-to-day operations of doing business. Forward-thinking leadership recognizes that Sustainability is an essential aspect of their business strategies for the uncertain future. However, most Leaders have not really begun to think through what it means to them, their organization or how to implement Sustainability Transformation.

Ralph Jarvis wrote “Any Questions?!” (ISBN 1461072824), and his research suggests that company Leadership is constantly searching for better ways to do business. He feels that while many are considering Sustainability projects individually, few are looking to fuse Sustainability with the Lean Six Sigma. “Any Questions?” is a book for Owners and Executives. It is an Executive Primer for Sustainable Transformation, driven by Lean and Six Sigma practices.

Executives and Owners are always open to new ideas that produce tangible results. Business leader are pragmatic by nature. “Building a Bridge to Benefits” is a book that provides a step-by-step approach to Owners and Executives, from Vision to Waste, to obtain Tangible Benefits, in molding an organization into a Sustainable Developed enterprise. This book builds on the case for “pragmatic Sustain-

ability” that creates a competitive advantage by using Sustainability principles.

Our Approach

We listen to our Clients and work with them to provide solutions for their needs.

- From strategy to operations, we are committed to helping our clients build their functional skills and boost performance for the long term.
- We work to develop and implement operational strategies that solve our clients' most critical problems.
- IT, Operations, Manufacturing and other functional areas in your enterprise are candidates to use Lean and Six Sigma. These powerful methodologies have significant impact without being capital intensive.
- We help Clients in all industries identify risk, its impact on cash flow and adjusted performance.
- We help clients develop IT strategies that are tightly aligned to business goals and corporate priorities, and to design organization and governance approaches to deliver the highest value.
- We work with our Clients to manage the challenges and opportunities created by growing pressure on resource systems and increasing environmental risk. © 2008-2012 All Rights Reserved |
